

BROKEN EMPIRE

Hard Rock and Metal band Broken Empire emerged onto the UK music scene back in 2017 delivering a uniquely energetic and thought provoking style of music; crossing multiple genres and appealing to almost every generation of fans of the rock genre.

Inspired by the likes of Alter Bridge, Five Finger Death Punch, Tremonti & Metallica; the band make it clear at their live shows that they mean business - busting out show stealing performances with riffs that punch harder than a heavyweight boxer, combined with powerful and emotive vocal lines.

Well over 75 sweat filled gigs later, a debut album, numerous EP's and over 350,000 Spotify streams, Broken Empire have supported a number of major touring bands (Those Damn Crows, Phil Campbell, The Fallen State, Evil Scarecrow) on their way to cementing themselves as one of Oxford's premier metal outfits.

Broken Empire are ascending and don't intend to slow down anytime soon!
