

# BROKEN EMPIRE

Hard Rock/Metal band Broken Empire emerged onto the UK music scene back in 2017 delivering a uniquely energetic and thought provoking style of music, crossing multiple genre boundaries and appealing to almost every generation of fans of rock and metal. Inspired by metal of all sub genres; the band make it clear at their live shows that they mean business - busting out show stealing performances with riffs that punch harder than a heavyweight boxer, combined with powerful and emotive vocal lines.

Well over 60 energetic and sweat filled gigs later, four EP's and over 350,000 Spotify streams; the band have supported a number of major headline touring bands on their way to cementing themselves as one of Oxford's premier metal outfits. Broken Empire are on the rise and don't intend to slow down anytime soon!
